U.S. Department of Agriculture

Choice Gladioli and Dahlias

Grown and Offered for Sale by

The Kennedy Gardens

Midland, Michigan

Each year we test many new varieties. Attendance at the National and Michigan State Gladiolus Shows gave us an opportunity to observe others that we do not grow. It is our impression that very few of the many advertised novelties have sufficient merit to displace the older varieties in commerce. We are constantly revising our lists to include the superior novelties and to omit those which fall short in quality. The present list represents the survival from more than 800 varieties grown separately in our gardens. The merit of the varieties which we have selected may in some measure be estimated by our large winnings against keen competition at the Michigan State Gladiolus Show.

The bulbs which we offer are of our own growing, and it is not our intention to purchase for resale. We have more than a half million bulbs with which to fill your orders; about the same quantity that we grew last year, but nearly 100 varieties have been discarded.

All quotations are made subject to prior sale. Stock of some varieties is very limited and early orders are desirable.

Stock is guaranteed true to name and free from disease. We do not substitute if sold out of a variety.

No order for less than \$1 except locally. Prices include delivery if order amounts to \$2 or more. Cash with order up to \$5.00. A 25% deposit will hold larger orders until March 15th, balance due before shipping or bulbs will be forwarded by express collect.

SIZE OF BULBS—The standard sizes are employed in grading these bulbs according to their diameter. No. 1 bulbs are 1½ inches or more; No. 2 bulbs, 1¼ to 1½ inches; No. 3, 1 inch to 1¼ inches; No. 4, ¾ inch to 1 inch; No. 5, ½ inch to ¾ inch; No. 6, ½ inch or less. No. 1 and No. 2 bulbs produce the largest blooms; Nos. 3, 4 and 5 bulbs produce smaller blooms but grow into large bulbs before harvest time. No. 6 bulbs frequently bloom if planted early. Small bulbs usually yield more bulblets than older stock.

PRICE OF BULBS—Single bulbs will be sold at $\frac{1}{8}$ the price of 10, providing price so obtained is \$.05 or more. No single item less than \$.05 may be ordered unless so quoted. Where available 100 bulbs will be sold at 8 times the price of 10. Price per 1000 is a matter of correspondence.

BULBLETS—Where bulbs are priced per 10, bulblets will be supplied at \$.25 per package; the number of bulblets per package depending on the scarcity of the variety. You will be treated liberally. Many varieties are available by quart or peck.

KEY TO ORIGINATORS: A.—Austin; B.—Bill; Bt.—Betscher; C.—Coleman; D.—Diener; F.—Fisher; Gf.—Groff; H.—Hoeg; K.—Kunderd; Kp.—Kemp; Ky.—Kelway; Kf.—Kirchoff; M.—Metzner; Pf.—Pfitzer; S.—Salbach.

Gladiolus in Mixture

Many people desire to purchase bulbs which will produce fine blooms in a wide variety of color, but they do not wish to label and keep each variety separate. We do not grow gladiolus in mixture but will make up collections from our separately grown varieties as listed above. Bulbs are priced per hundred, fifty bulbs at the hundred rate.

Bulbs Priced Per 100

	No.1	No.2	No.3	No.4	No.5	No.6	Bulblets per quart
SELECTED MIXTURE	\$3.60	\$3.40	\$3.00	\$2.00	\$1.25	\$.75	\$.75
EXTRA SELECTED MIXTURE	5.00	4.50	4.00	2.75	1.75	1.00	1.00

Iris

We grow about 175 named varieties of Iris including the best originations of French, English and American hybridizers. August is the proper time to transplant Iris. We shall issue a list in April and will be glad to send a copy to those requesting it.

Exhibition Dahlias

We have grown Dahlias for several years and we are recommending only those varieties which grow well in our climate. With the exception of Little Jewell and Mr. C. H. Dresselhuys they will grow to a diameter of 7 inches or more under field culture. With special attention some of them have produced 11 inch blooms. They all possess long stems suitable for cutting.

Prices are for single tubers delivered in good growing condition. If unsatisfactory, return at once and stock will be replaced or money refunded.

ADDA PATTERSON—H. C., large white, good stem	\$3.50
ALTAMOUNT—D., rose pink, long stem, grows 10 feet high	3.50
AMUN RA—D., very fine large coppery bronze	.75
